A positive attitude about teaching and students themselves is key to keeping them engaged and focused. Also, being enthusiastic about your subject matter motivates students to wish to learn what is interesting about it. Education is not the filling of a pail but the lighting of a fire. Teachers work with what they have. Their time and resources may be limited, but a young mind is limitless. Student passion for learning is all that is necessary for teachers to do their job.

Firstly they should have enough teachers to teach

Secondly they should know how to teach means if they are teaching they should have enough knowledge of that particular topic

Principal should arrange health camp for students , opd work should be mandatory from 3rd year

There should be semester pattern

All lectures should be taken
