Nothing everything is perfect

A positive attitude about teaching and students themselves is key to keeping them engaged and focused. Also, being enthusiastic about your subject matter motivates students to wish to learn what is interesting about it. Education is not the filling of a pail but the lighting of a fire. Teachers work with what they have. Their time and resources may be limited, but a young mind is limitless. Student passion for learning is all that is necessary for teachers to do their job.

More clinical practice and clinical exposure
