## Learn best practices around academic integrity

QuillBot is committed to promoting and protecting academic integrity. Our Plagiarism Checker, [Citation Generator](#) and guides are built to educate students on best practices to avoid unintentional plagiarism.

Here's the thing: even paraphrased writing needs citations. Ideas can be plagiarized just as easily as words, so if you take someone's idea and reword it, it needs to be cited all the same. Trying to pass off someone else's idea as your own, with fresh language, is just as

unethical as ripping a quote off. Everything that did not originate in your brain needs to be accurately cited.
