7.3.1: Portray the performance of the institution in one area distinctive to its priority and thrust within 1000 words.

Vision statement of the SSVP BHMS HATTA: To be a best institution and leader in BHMS education addressing social issue through education and practice. We have always endeavored to be a one of a kind by incorporating inter-disciplinary research, stimulating organization, new technique methods, value based education, empowering society through the introduction of projects and encouraging entrepreneurship.

Interdisciplinary study:

At SSVP BHMS HATTA, the curriculum is well structured so that student are exposed to and trained in multiple discipline. This method of study facilitates student learning by encouraging them to make connections between concept and ideas from various discipline. So the student employ what they have learned in one subject to another, there by increasing their learning experiences. The most effective approach to interdisciplinary study permit student to design their own interdisciplinary path between the course offered in each semester. A well managed first year introduction program ensures that student are educated on the benefits of interdisciplinary course from the very beginning.

Using the educator collaboration, SSVP BHMS HATTA pursues authentic multi- disciplinary learning. In order to facilitate successful teaching and learning. SSVP BHMS HATTA frequently invites professionals from other disciplines to its educational setting. This type of interaction promotes the constructive paradigm, which permit the creation of new knowledge and a deeper understanding of concepts.

In interdisciplinary study it is essential to make connection between desperate concepts;

- Students are highly motivated because they are interested in studying topics that fascinate them consequently the curriculum is frequently best on life experience is giving the learning a genuine purpose and establishing a connection to the real world
- Students gain a more in depth understanding of subject because they evaluate the various and distinct perspective from which a topic can be investigated
- Student exercise and develop their critical thinking skill when they go beyond disciplinary boundaries to investigate various point of view and being to compare and contrast topics from different Academy disciplines

➤ Examining issues that transient academic boundaries motivates student to pursue new knowledge in a variety of subject areas

➤ Interdisciplinary knowledge and the application of multiple discipline can Foster

greater creativity

Start up policies

To follow in the death of the MUHS policy SSVP BHMS HATTA has a policy of nurturing startup in its academic settings, student are introduced to this policy during the first year introduction session. Star-tup policies are crucial to the economic and social success of a nation. in developing Nations this policies aid Enterprises and innovators in overcoming the numerous obstacle the face when a attempting to market there businesses SSVP BHMS HATTA believes that BHMS education colleges are essential to the development of nations entrepreneurship. college student who have taken their businesses concepts to the next level and founded their own pharmacist are also represented. both of them have beneficial from our systems throughout their journey. these entrepreneurs have mentored and sponsored campus pharmacist in addition to performing volunteers service for the SSVP BHMS HATTA start up community.
