The study of education equity is often linked with the study of excellence and equity. Educational equity depends on two main factors. The first is fairness, which implies that factors specific to one's personal conditions should not interfere with the potential of academic success. The second factor is inclusion, which refers to a comprehensive standard that applies to everyone in a certain education system. These two factors are closely related and depend on each other for an educational system's success.</p> <p>Finally HOD delivered the vote of thanks and the guest was felicitated with a momentum</p>

ACTIVITY REPORT

Name Of The Activity	Seminar on "india fight cyber violence against women and children	
Type Of Activity	Gender Equity Program	
Date And Time Of Activity	8/9/2018	10.30am
No. Of Participants	Female:16	Male:22
Coordinators	Mr. Nagsen tare	
Description	<p>The principal addressed the gathering and welcomed the guest. The HOD introduced about the guest and handled over to the speaker.</p> <p>Cyber-attacks and violence against women are often not taken seriously. For this to change, states must address cyberviolence as much as any other form of violence against women, using all the tools at their disposal. If states do not act, online freedom of expression is threatened. If, on the contrary, they address online gender-based violence by using the existing international human rights framework, they will make of Internet an open, safe and free platform to exchange ideas.</p> <p>Finally HOD delivered the vote of thanks and the guest was felicitated with a momentum</p>
